Saturday, October 21, 1961

I had breakfast with Roger Batzel, John Foster and Arnie Fritsch to discuss the problem of building a 50 megaton bomb and the buildup of our capability in basic plutonium metallurgy.

I visited the Lawrence Radiation Laboratory for discussions with Iz Perlman and Earl Hyde on our book and with Stan Thompson, Don Burnett, Eldon Haines, Albert Ghiorso, Sherman Fried, Burris Cunningham, Kai Siegbahn, and Jack Hollander.

I had lunch at the University House with Clark Kerr, N. Topping and other University of California administrators.

10/21/61-2

I attended the U.C.-U.S.C. football game which U.S.C. won, 28-12.

Fritsch and I met with Sterling and Terman at the Bohemian Club in San Francisco to discuss administrative arrangements for the Stanford linear electron accelerator.

The Earl Hydes invited me to dinner and I stayed on afterward for a party with the Streets, Batzels, Perlman's, Hicks, Templetons, Reynolds's, Conzettes, Michels and others. I again spent the night at the Durant Hotel.
